Mapping review/systematic map. Map out and categorize existing literature from which to commission further reviews and/or primary research by identifying gaps in research literature. Completeness of searching determined by time/scope constraints. No formal quality assessment. May be graphical and tabular.

### **Types of Reviews - Systematic Reviews: the process**

Review typology For the purpose of this typology a systematic review is defined as a robust, reproducible, structured critical synthesis of existing research. While other approaches to the synthesis of evidence exist (including but not limited to literature reviews, evidence maps, rapid reviews, inte-

Du Toit (2010) suggests that a typology needs to be a reflection on methodologies used within a discipline and draws on Teddlie and Tashakkori (2006) five benefits of a typology in the area of mixed method research design. Of these the first three are most relevant to the NCRM typology, and are summarised as: 1.

THE GENERATION GAP A Review and Typology of Social- Psychological Perspectives VERN L. BENGTONSON University of Southern California Of those phenomena on which social scientists gather data and write analyses, there are few of more popular relevance today than discussions of the "generation gap." It is of course true that the problem of generations is one of the
