Considerable controversy surrounds the issue of care at the end of life (EOL) for older adults. Technological advances and the legal, ethical, clinical, religious, cultural, personal, and fiscal considerations in the provision of artificial hydration and nutrition support to older adults near death are presented in this comprehensive review.

Artificial Nutrition and Hydration at the End of Life

The threshold was that at least 90% of the time the technology-based surveillance interval would match the pathology-based surveillance interval, in addition to a negative predictive value of 90% for adenomas, meaning that hyperplastic polyps could potentially be left in situ.

Making optical biopsy a clinical reality in colonoscopy

Computer-aided detection (CADe), also called computer-aided diagnosis (CADx), are systems that assist doctors in the interpretation of medical images. Imaging techniques in X-ray, MRI, and ultrasound diagnostics yield a great deal of information that the radiologist or other medical professional has to analyze and evaluate comprehensively in a short time.

Computer-aided diagnosis - Wikipedia

Global Engage is pleased to announce its digital pathology congress will return to London for its 5 th year on 6-7 December 2018. As the leading conference in our digital pathology series, which will include meetings in Tokyo and New York in 2019, last year's sold out meeting attracted over 420 attendees and 35 exhibitors.
