ChemTreat has a full product line of corrosion inhibitors, dispersants, and biocides for maximizing the efficiency of cooling tower water treatment.

Cooling Tower Water Treatment | ChemTreat, Inc.

Here is the text of Newsweek's 1975 story on the trend toward global cooling. It may look foolish today, but in fact world temperatures had been falling since about 1940. It was around 1979 that they reversed direction and resumed the general rise that had begun in the 1880s, bringing us today back to around 1940 levels.

Chilled Water for Humidity Control. A chilled water cooling system, such as the DeltaCool[®] Environmental System, is a hydronic process by which chilled water is circulated through a loop piping system.

Chilled Water Cooling & Humidity Control - Delta T Solutions

Computer cooling is required to remove the waste heat produced by computer components, to keep components within permissible operating temperature limits. Components that are susceptible to temporary malfunction or permanent failure if overheated include integrated circuits such as central processing units (CPUs), chipset, graphics cards, and hard disk drives.

The Future of Cooling - iea.org

Data center immersion cooling involves directly immersing IT hardware in a non-conductive liquid such as 3M[®],[®] Novec[®],[®] Engineered Fluids. Heat generated by the electronic components is directly and efficiently transferred to the fluid, reducing the need for active cooling components, such as interface materials, heat sinks and fans that are common in air cooling.

Immersion Cooling - 3M Novec

All Myron L [®] handheld instruments are factory calibrated with NIST traceable Standard Solutions having specific conductivity/ppm values. Myron L [®] Company Standard Solutions are made under strictly controlled conditions using reagent grade salts. These salts are mixed with deionized water having a resistivity of at least 5 megohms-cm purity.

Standard Solutions and Buffers - Myron L Company

Global cooling was a conjecture during the 1970s of imminent cooling of the Earth's surface and atmosphere culminating in a period of extensive glaciation. Press reports at the time did not accurately reflect the full scope of the debate in the scientific literature. The current scientific opinion on climate change is that the Earth underwent global warming throughout the 20th century and ...
