A music video game, also commonly known as a music game, is a video game where the gameplay is meaningfully and often almost entirely oriented around the player's interactions with a musical score or individual songs. Music video games may take a variety of forms and are often grouped with puzzle games due to their common use of "rhythmically generated puzzles".

Trance is a genre of electronic music that emerged from the rave scene in the United Kingdom in the late 1980s and developed further during the early 1990s in Germany before spreading throughout the rest of Europe, as a more melodic offshoot from techno and house. At the same time trance music was developing in Europe, the genre was also gathering a following in the Indian state of Goa.
