SIGCOMM is ACM's professional forum for discussing communications and computer networks. SIGCOMM members include scientists, engineers, educators and students.

Welcome | acm sigcomm

Data transmission (also data communication or digital communications) is the transfer of data (a digital bitstream or a digitized analog signal) over a point-to-point or point-to-multipoint communication channel. Examples of such channels are copper wires, optical fibers, wireless communication channels, storage media and computer buses. The data are represented as an electromagnetic signal ...

Data transmission - Wikipedia

Power-line communication (PLC) carries data on a conductor that is also used simultaneously for AC electric power transmission or electric power distribution to consumers. It is also known as power-line carrier, power-line digital subscriber line (PDSL), mains communication, power-line telecommunications, or power-line networking (PLN).. A wide range of power-line communication technologies ...
