A job safety analysis (JSA) is a procedure which helps integrate accepted safety and health principles and practices into a particular task or job operation. In a JSA, each basic step of the job is to identify potential hazards and to recommend the safest way to do the job.

Job safety analysis - Wikipedia

Hazard Control Measures Information obtained from a job hazard analysis is useless unless hazard control measures recommended in the analysis are incorporated into the tasks.

Hazard Control Measures - ClickSafety

Overview. Hazard identification is a key part of any injury and illness prevention program within a business (especially small and medium sized companies).
