Valuation overview. Valuation of financial assets is done generally using one or more of the following approaches; but see also, generally, Outline of finance #Valuation: . Absolute value models ("Intrinsic valuation") that determine the present value of an asset's expected future cash flows. These kinds of models take two general forms: multi-period models such as discounted cash flow models ...

A brand is a name, term, design, symbol, or other feature that distinguishes an organization or product from its rivals in the eyes of the customer. Brands are used in business, marketing, and advertising. Name brands are sometimes distinguished from generic or store brands.. The practice of branding is thought to have begun with the ancient Egyptians who were known to have engaged in ...

**Brand - Wikipedia**

Companies have some leeway in deciding what to count as a capital asset. A \$10 stapler, for example, has a useful life of more than one year, but because it is of such little monetary value, it is often administratively easier to expense the stapler (that is, to reflect its cost as an expense on the income statement) than to have the accounting staff set up a depreciation schedule for the stapler.
