Transitions in Care for Patients with Brain Tumors

History. Wilhelm Reich and the post-Reichians are considered the central element of body psychotherapy. From the 1930s Reich became known for the idea that muscular tension reflected repressed emotions, what he called 'body armour', and developed a way to use pressure to produce emotional release in his clients. Reich was expelled from the psychoanalytic mainstream and his work found a home in ...

Transpersonal psychology is a sub-field or "school" of psychology that integrates the spiritual and transcendent aspects of the human experience with the framework of modern psychology. It is also possible to define it as a "spiritual psychology". The transpersonal is defined as "experiences in which the sense of identity or self extends beyond (trans) the individual or personal to encompass ...
